- [H5] Luteolin is a naturally occurring flavonoid present in plants such as perilla frutescens. It is recognized for its strong antioxidant capabilities, which safeguard cells from oxidative damage caused by free radicals. Luteolin aids brain health by minimizing inflammation and shielding neurons from stress, potentially improving cognitive function and memory. Furthermore, it promotes healthy cholesterol levels by preventing the oxidation of low-density lipoprotein (LDL) cholesterol, thus lowering the risk of arterial plaque buildup. Additionally, by enhancing brown adipose tissue (BAT) levels, luteolin supports increased calorie burning and weight management.
- [H5] Kudzu, extracted from the root of the pueraria lobata plant, is a key component in Puravive. This ingredient has been utilized in traditional Chinese medicine for its numerous health advantages. Packed with antioxidants, kudzu helps combat

oxidative stress and promotes overall wellness. It is recognized for its role in increasing BAT levels, which boosts the body's fat-burning capability. Additionally, kudzu supports cardiovascular health by enhancing blood circulation and lowering blood pressure. Its anti-inflammatory effects help ease pain and lower the risk of chronic diseases related to inflammation.

- [H5] Holy basil, scientifically known as Ocimum sanctum, is a highly valued herb in Ayurvedic medicine for its adaptogenic qualities, which assist the body in managing stress and fostering mental equilibrium. It aids weight loss by boosting brown adipose tissue (BAT) levels and enhances metabolism. Additionally, holy basil supports brain health by alleviating stress and anxiety, enhancing cognitive function, and safeguarding against age-related decline. Its anti-inflammatory and antioxidant properties promote overall health by mitigating oxidative stress and inflammation, supporting cardiovascular wellness, and helping to maintain healthy cholesterol levels.
- [H5] White Korean ginseng, or panax ginseng, is a powerful herb known for its numerous health benefits. It supports healthy immunity by boosting the body's resistance to infections and diseases. Ginseng also helps reduce oxidative stress, which can damage cells and lead to chronic diseases. By enhancing BAT levels, white Korean ginseng promotes fat burning and energy production, aiding in weight loss and improving physical performance. Ginseng supports mental clarity and cognitive function, helping to reduce fatigue and improve focus.
- [H5] Amur cork bark, derived from the phellodendron amurense tree, is another important ingredient in Puravive. It is known for its ability to boost BAT levels, which enhances the body's ability to burn calories and lose weight. Amur cork bark also supports digestion by reducing bloating and promoting healthy gut function. Its anti-inflammatory properties help alleviate digestive issues and support overall gastrointestinal health. Additionally, amur cork bark supports heart and liver health by reducing inflammation and protecting against oxidative damage.
- [H5] Propolis is a resin-like substance made by bees that has been valued for its medicinal benefits for centuries. It contains over 300 antioxidants, which combat oxidative stress and promote overall health. Propolis increases brown adipose tissue (BAT) levels, improving the body's capacity to burn fat and generate energy. It also helps maintain healthy blood sugar levels by enhancing insulin sensitivity and lowering the risk of diabetes. With its antimicrobial properties, propolis defends against infections and supports immune health. Furthermore, it aids in wound healing and tissue repair, contributing to overall well-being.
- [H5] Quercetin, a flavonoid present in various fruits and vegetables, is renowned for its strong antioxidant and anti-inflammatory effects. By increasing BAT levels, quercetin enhances calorie burning and aids in weight loss. It also promotes healthy blood pressure by relaxing blood vessels and improving circulation. Additionally, quercetin rejuvenates aging cells by minimizing oxidative stress and encouraging cellular repair. Its anti-inflammatory benefits help lower the risk of

chronic diseases and support overall cardiovascular health. Moreover, quercetin contributes to respiratory health by reducing airway inflammation and enhancing lung function.

- [H5] Oleuropein, a compound found in olive leaves, is renowned for its health benefits, particularly in supporting heart health. It boosts BAT levels, promoting fat burning and energy production, which aids in weight loss. Oleuropein supports healthy cholesterol levels by preventing the oxidation of LDL cholesterol and reducing the risk of plaque formation in arteries. Its antioxidant properties help protect cells from oxidative damage and support overall health. Additionally, oleuropein supports artery health by improving blood flow and reducing inflammation, contributing to cardiovascular health. Its antimicrobial properties also help protect against infections and support immune health.
