

USDT (ERC20) USDT (TRC20)

A Tether Mixer, also known as a Tether Tumbler is an online service helping tether owners to regain privacy over there USDT

The best way to buy cryptocurrencies such as Tethers is through a so-called "Exchange". Exchange would be used for Tether selling their cash and after verifying their identity, by providing their exchange with a official ID card.

The process described as a security feature, is actually a trick from the governments forcing those exchanges to collect and share their personal information with them.

Since that done and because the information is now used by Tether to public, avoid having your ID left for sale to match your wallet and how their own change to use your funds.

However, there is a legal way to purchase your crypto privacy. It's called a Tether [USDT Mixer](#).

How does tether mixer work?

Tether Mixer uses advanced wallet services and work in two ways:

They will use one of their liquidity pool to receive your USDT or TRX or ETH or BTC or any other cryptocurrency.

Then they will use another of their liquidity pool to provide you with other [cryptocurrencies](#).

Thinking for when you will receive on your new wallet after that mixing procedure will not be visible in your original blockchain.
