- [H5] Luteolin is a naturally occurring flavonoid found in plants like Perilla frutescens. It is renowned for its strong antioxidant properties, which safeguard cells from oxidative damage caused by free radicals. Luteolin supports brain health by reducing inflammation and protecting neurons from stress, potentially enhancing cognitive function and memory. Additionally, it aids in maintaining healthy cholesterol levels by preventing the oxidation of low-density lipoprotein (LDL) cholesterol, thereby lowering the risk of plaque formation in arteries. By boosting brown adipose tissue (BAT) levels, luteolin also contributes to increased calorie burning and weight management.
- [H5] Kudzu, sourced from the root of the pueraria lobata plant,

SEO Sisältö

is another crucial ingredient in Puravive. Traditionally used in Chinese medicine, kudzu offers numerous health benefits. It is packed with antioxidants that combat oxidative stress and promote overall health. Kudzu is recognized for its capacity to increase BAT levels, thereby enhancing the body's fat-burning ability. Additionally, it supports cardiovascular health by improving blood flow and lowering blood pressure. Its anti-inflammatory properties also help relieve pain and reduce the risk of chronic diseases linked to inflammation.

- [H5] Holy basil, or ocimum sanctum, is a revered herb in Ayurvedic medicine, known for its adaptogenic properties that help the body adapt to stress and promote mental balance. By boosting BAT levels, holy basil enhances metabolism and supports weight loss. It also supports brain health by reducing stress and anxiety, improving cognitive function, and protecting against age-related decline. Holy basil's anti-inflammatory and antioxidant properties contribute to overall health by reducing oxidative stress and inflammation, supporting cardiovascular health, and maintaining healthy cholesterol levels.
- [H5] White Korean ginseng, also known as panax ginseng, is a potent herb renowned for its wide array of health benefits. It enhances immunity by strengthening the body's defenses against infections and diseases. Additionally, ginseng mitigates oxidative stress, which can harm cells and contribute to chronic illnesses. By increasing BAT levels, white Korean ginseng facilitates fat burning and energy production, assisting in weight loss and boosting physical performance. Furthermore, ginseng supports mental clarity and cognitive function, reducing fatigue and enhancing focus.
- [H5] Amur cork bark, sourced from the phelodendron amurense tree, is a key component in Puravive. It is recognized for its capacity to increase BAT levels, enhancing the body's calorie-burning and weight loss abilities. Amur cork bark also aids digestion by reducing bloating and promoting healthy gut function. Its anti-inflammatory properties help relieve digestive issues and support overall gastrointestinal health. Moreover, amur cork bark benefits heart and liver health by decreasing inflammation and protecting against oxidative damage.
- [H5] Propolis is a resinous substance produced by bees and has been used for centuries for its medicinal properties. It is rich in over 300 antioxidants, which help combat oxidative stress and support overall health. Propolis boosts BAT levels, enhancing the body's ability to burn fat and produce energy. It also supports healthy blood sugar levels by improving insulin sensitivity and reducing the risk of diabetes. Propolis's antimicrobial properties help protect against infections and support immune health. Additionally, it supports wound healing and tissue repair, contributing to overall health and well-being.
- [H5] Quercetin is a flavonoid found in many fruits and vegetables, known for its powerful antioxidant and anti-inflammatory properties. By boosting BAT levels, quercetin enhances the body's ability to burn calories and support weight loss. It also supports healthy blood pressure by relaxing blood vessels and improving blood flow. Quercetin helps rejuvenate aging cells by reducing oxidative stress and promoting cellular

SEO Sisältö

repair. Its anti-inflammatory properties help reduce the risk of chronic diseases and support overall cardiovascular health. Quercetin also supports respiratory health by reducing inflammation in the airways and improving lung function.

- [H5] Oleuropein, a compound found in olive leaves, is renowned for its health benefits, particularly in supporting heart health. It boosts BAT levels, promoting fat burning and energy production, which aids in weight loss. Oleuropein supports healthy cholesterol levels by preventing the oxidation of LDL cholesterol and reducing the risk of plaque formation in arteries. Its antioxidant properties help protect cells from oxidative damage and support overall health. Additionally, oleuropein supports artery health by improving blood flow and reducing inflammation, contributing to cardiovascular health. Its antimicrobial properties also help protect against infections and support immune health.
