Renowned for its potent antioxidant properties, luteolin protects cells from oxidative damage caused by free radicals. It supports brain health by reducing inflammation and safeguarding neurons from stress, which can enhance cognitive function and memory. Additionally, luteolin helps maintain healthy cholesterol levels by preventing the oxidation of low-density lipoprotein (LDL) cholesterol, thereby reducing the risk of plaque formation in arteries. Furthermore, luteolin boosts brown adipose tissue (BAT) levels, contributing to increased calorie burning and aiding in weight management.

- [H5] Holy basil, also known as *Ocimum sanctum*, is a cherished herb in Ayurvedic medicine valued for its adaptogenic qualities. These properties help the body handle stress and maintain mental equilibrium. By increasing brown adipose tissue (BAT) levels, holy basil boosts metabolism and supports weight loss. It benefits brain health by alleviating stress and anxiety, enhancing cognitive function, and safeguarding against age-related decline. Furthermore, its anti-inflammatory and antioxidant effects promote overall wellness by minimizing oxidative stress and inflammation, supporting cardiovascular health, and sustaining healthy cholesterol levels.
- [H5] White Korean ginseng, or *Panax ginseng*, is a potent herb celebrated for its many health benefits. It strengthens the immune system, increasing the body's defense against infections and diseases. Additionally, ginseng reduces oxidative stress, protecting cells from damage that can cause chronic illnesses. By boosting BAT levels, it promotes fat burning and energy production, supporting weight loss and enhancing physical performance. Furthermore, ginseng improves mental clarity and cognitive function, reducing fatigue and enhancing focus.
- [H5] Amur cork bark, derived from the *Phellodendron amurense* tree, is an essential component of Puravive. It increases BAT levels, which enhances calorie burning and supports weight loss. Additionally, it aids digestion by reducing bloating and promoting a healthy gut. Its anti-inflammatory effects help to alleviate digestive problems and support overall gastrointestinal health. Moreover, amur cork bark contributes to heart and liver health by reducing inflammation and guarding against oxidative damage.
- [H5] Propolis, a resinous substance created by bees, has a long history of medicinal use. It contains over 300 antioxidants, which help combat oxidative stress and support overall wellness. By boosting BAT levels, propolis enhances fat burning and energy production. It also supports healthy blood sugar levels by improving insulin sensitivity, thereby reducing the risk of diabetes. Additionally, its antimicrobial properties strengthen the immune system against infections. Propolis also speeds up wound healing and tissue repair, contributing to overall health and vitality.
- [H5] Quercetin is a flavonoid present in a variety of fruits and vegetables, renowned for its potent antioxidant and anti-inflammatory effects. By increasing BAT (brown adipose tissue) levels, quercetin aids in calorie burning and weight management. It also contributes to maintaining healthy blood pressure by relaxing blood vessels and enhancing blood circulation.
